

NSHC VS. NBHWC

Which Certification is Right for You?

NSHC's AHNCC Nurse Coach Board Certification (NC-BC) - the clear choice for registered nurses - demonstrates one's expertise and the attainment of the highest achievement in clinical health coaching credentialing.

Unlike the NBHWC Board Certification, the NC-BC is nationally accredited, recognized by ANCC Magnet, and specifically tailored for nurses in clinical practice, ensuring alignment with patient-centered, holistic, evidence-based health standards that position you as an expert and leader in patient health and wellness.
